

## WESTERN AUSTRALIA.

The quantity of gold produced and entered for shipment at the customs in 1886 was only 302 oz. In 1887 it was 4,873 oz. and in 1888 3,493 oz. The rate of progress since then is shown in the table appended. It will be noticed that for 1889 only Pilbarra and the total are given, the reason being that no separate account was kept till 1890 of the fields producing the gold.

	1889.	1890.	1891.	1892.	1893.	1894.	Total.
	oz.	oz.	oz.	oz.	oz.	oz.	oz.
