SUMMERFORD WORKS, WILLENHALL, ENGLAND.

BARNARD, BISHOP & BARNARDS, Ld.

— Inventors and Original Manufacturers of —

GALVANIZED WIRE NETTING

In ALL MESHES and GAUGES, from 3 in. to 4 in., and suitable for all purposes.

Oldest & Largest Makers in the World.

**SPECIALITY—
PATENT MACHINE-MADE**

MIXED-MESH NETTING,

Consisting of 1 1/2 in. mesh below and 2 1/2 in. above, thus providing an absolutely safe Rabbit Fence at 20 per cent. below the cost of 1 1/2 inch throughout.

At the suggestion of several clients we have laid down Machinery for the manufacture of a

NEW VARIETY (as illustrated),

Consisting of 1 1/2 inch below and a special form of 1 1/2 inch above, and this combination exactly fulfils the conditions of the Bill dealing with the rabbit pest as introduced into the New S. Wales Legislature by the Honorable Carruthers.

Although this combination is not as economical as our original one mentioned above, yet it effects a saving of 7 1/2 to 10 per cent. over 1 1/2 inch throughout.

We being the Sole Makers of this Patent Netting, indentors should specify "BARNARD'S NETTING."

INQUIRIES INVITED. ESTIMATES & SAMPLES FREE.

Do not be misled into buying so-called mixed-mesh netting with intermediate strands, which is in reality but two ordinary widths laced together by hand, while ours is woven in one unbroken width throughout.

Norfolk Iron Works, NORWICH, England.

**GUEST AND CHRIMES,
FOUNDRY & BRASS WORKS, ROTHERHAM,
AND
128, SOUTHWARK STREET, LONDON, S.E.
PRIZE MEDALS.**
