

The Crown and Anchor Boiler Compound

For the Prevention of Incrustation, Corrosion and Pitting in
Marine, Locomotive and Stationary Boilers.

THIS COMPOUND contains nothing injurious, and it is an efficient preservative, and effectually removes Scale in Steam Boilers. It is prepared to suit water derived from any source, and saves the continual labour, expense, and damage usually caused by scruffing or chipping, and consequent injury to the Boiler, and is also a most efficient cleanser for the intricate parts of Injector and Fittings. Orders and enquiries punctually attended to.

Atlas Chambers,
Cliff Street, FREMANTLE.
TELEPHONE No. 626.
