BARNARD, BISHOP & BARNARDS, Ld.

Inventors and Original Manufacturers of

GALVANIZED WIRE NETTING

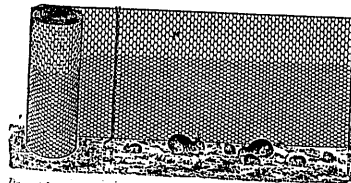

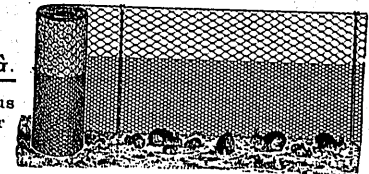

In ALL MESHES and GAUGES, from $\frac{3}{8}$ in. to 4 in., and suitable for all purposes.

Oldest and Largest Makers in the World.

SPECIALITY—
PATENT MACHINE-MADE

MIXED-MESH NETTING.

Consisting of $1\frac{1}{2}$ in. mesh below and $2\frac{1}{2}$ in. above, thus providing an absolutely safe Rabbit Fence at 20 per cent. below the cost of $1\frac{1}{2}$ inch throughout.

At the suggestion of several clients we have laid down Machinery for the manufacture of a

NEW VARIETY (as illustrated),

Consisting of $1\frac{1}{2}$ inch below and a special form of $1\frac{1}{2}$ inch above, and this combination exactly fulfils the conditions of the Bill dealing with the rabbit pest as introduced into the New South Wales Legislature by the Hon. Carruthers, and a third combination consisting of $1\frac{1}{2}$ inch combined with $1\frac{1}{2}$ inch mesh. These all effect a considerable saving over $1\frac{1}{2}$ inch mesh throughout.

We being the Sole Makers of this Patent Netting, Inventors should specify "BARNARD'S NETTING." INQUIRIES INVITED. ESTIMATES AND SAMPLES FREE.

Do not be misled into buying so-called mixed-mesh netting with intermediate strands, which is in reality but two ordinary widths laced together by hand, while ours is woven in one unbroken width throughout.

Norfolk Iron Works, NORWICH, England.
