BARNARD, BISHOP, & BARNARDS, LD.

Inventors and Original Manufacturers of
GALVANIZED WIRE NETTING

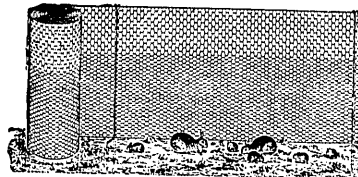

In ALL MESHES and GAUGES, from 3 in. to 4 in.
and suitable for all purposes.

Oldest and Largest Makers in the World.

SPECIALITY-
PATENT MACHINE-MADE

MIXED-MESH NETTING,

Consisting of 1 1/2 in. mesh below and 2 1/2 in. above, thus
providing an absolutely safe Rabbit Fence at 20 per
cent. below the cost of 1 1/2 inch throughout.

Do not be misled into buying so-called mixed-mesh netting with intermediate strands, which is in reality but two ordinary widths
laced together by hand, while ours is woven in one unbroken width throughout.

Norfolk Iron Works, NORWICH, England.

At the suggestion of several clients we have laid down Machinery for the
manufacture of a

NEW VARIETY (as illustrated),

Consisting of 1 1/2 inch below and a special form of 1 1/2 inch above, and this combination exactly fulfils the conditions of the Bill dealing with the rabbit pest, as introduced into the New South Wales Legislature by the Hon. Carruthers. Although this combination is not as economical as our original one mentioned above, yet it effects a saving of 7 1/2 to 10 per cent. over 1 1/2 inch throughout.

We being the Sole Makers of this Patent Netting,
Inventors should specify "BARNARD'S NETTING."
INQUIRIES INVITED. ESTIMATES AND SAMPLES FREE.
