

**Cartographic Note (CN): CN77 240 Chain**  
**LANDS AND SURVEYS DEPARTMENT 240 Chain Bonnes Cadastral Series**

*CN notes:*

- Area covered: South West Division
- Scale: 1 inch = 3 miles. Natural scale 1:190080.
- Contents and features: Similar to the 300 chain series. This series has replaced the 300 chain series for the South West Division. The 240 chain and 300 chain series have taken the place of the G, N and M series on 300 chain scale and the L series on 200 chain scale which were produced in the 1890s.
- Date: This series appears to have begun in the 1920s, possibly earlier, and reprints have continued. As many as possible of the sheets of different dates have been collected.
- Index: Index Map No. 1. Medium size red squares (the same index squares as the 300 chain series)
- Gaps in the series: according to the Chief Draftsman, Lands and Surveys Dept. in May 1960, the following 240 sheets were not issued: 3, 4, 11, 18, 35, 41, 54, & 57. Gaps in this series may be filled by the corresponding numbers from the 300 chain series.
